SENATOR HOAR DEAD

Passed Away at His Home in Worcester, Mass.

His Son, Gen. Rockwood Hoar, His Daughter, Mary Hoar, and Dr. Warren R. Gilman.

Worcester, Mass., Sept. 30.—George Frisbie Hoar, senior senator from Massachusetts, died at his home in ing. The end followed a period of unly that only the attending physicians

Senator Hoar.

were aware of the exact moment of dissolution.

The attending physicians despaired of the senator's life six weeks ago, but such was the vitality exhibited by an ultimate recovery.

On Sunday last, however, all hope was abandoned after a last unsuccessful attempt to administer medicine and nourishment. Brief intervals were followed by longer durations of unconsciousness until Tuesday morning, when the venerable statesman sank into a state of coma from which all efforts to rouse him proved futile.

During the last hours there was not scarcely perceptible pulse evidenced the final struggle.

There were present at the bedside when death came the senator's son, Gen. Rockwood Hoar; his daughter, Mary Hoar, and Dr. Warren R. Gilman, who for weeks has been in al- n this direction was interruptmost constant attendance upon the ed Friday. The application for an senator.

the public in this manner when the physicians attending him decided that the venerable legislator was on his death bed.

Senator Hoar had been in ill health since last winter and even when attending the sessions of the senate he lest his exertions should overcome him. At that time he was troubled from its effects.

Toward the close of the last session ployes feel the force of this order. of congress he was frequently absent from the sessions of the senate and remained at his hotel.

· He came to his home here soon after the adjournment, apparently recovered from the attack of lumbago. Late in May he attended the biennial celebration in the town of Sutton, Wermore than a half hour's duration in the open air at the dedication of a memorial tablet to Gen. Rufus Putnam on the site of Putnam's birthaddress, eulogizing Gen. Putnam as one of the country's greatest men.

A few weeks later Senator Hoar spoke at a special session of court when eulogies were delivered on the life of Col. E. B. Stoddard, a life long friend of the senator, and he also made an informal afternoon address at the English high school on the occasion of the presentation to the city of some copies of Stuart's portrait of Washington by the Daughters of the last week. Revolution.

This was Senator Hoar's last appearance in public life. During the latter part of July and up to August 17 he remained in his home and much of the time stayed in bed. He received visitors daily and dictated many letters to his secretary.

THE ISTHMIAN CANAL.

About 12,000 Laborers, Half of Whom Are Skilled, Are at Work.

Chicago, Oct. 1.-John F. Wallace, chief engineer of the Panama canal, delivered an address on "The Isthmian Canal" at a banquet given him here Friday night by 400 members of the There Were Present at His Bedside Illinois Manufacturers' association at the Auditorium hotel.

Mr. Wallace said, in part: "The work before us now is to determine the most practical plan and whether the canal is to be on the level of the sea or above. Estimates on a canal 90 feet above the sea level have been this city at 1:35 o'clock Friday morn. placed at \$144,000,000 for construction work, \$40,000,000 to France consciousness that had continued and \$10,000,000 to the Panama since early Tuesday and came so gent- government. On my arrival in Panama three months ago I placed eight parties in the field for exploration purposes. Were we to choose the plans providing for 90 feet above the sea level a number of dams would be necessary. After considerable investigation we found that solid rock necessary for proper foundation would not be found less than 150 feet below the surface of the earth. With the sea level canal one dam at the Pacific endof the canal is all that is necessary. While the cost of the latter form of construction is higher, the results would be better and the canal could at any time be changed. As yet it has not been definitely decided which form of canal will be accepted, as the canal commission has not received the report of my investigations.

"Nothing serious is expected from the labor problem, as has been reported. About 12,000 laborers, half of whom are skilled workmen, are at work at present. While the efficiency of their work is not as great as can be secured, still it is adapted to the their distinguished patient that even climate, as the cities bordering on the they were surprised and the public canal are almost uninhabitable to outwas at times led to cherish a faith in siders because of their poor sanitary conditions."

The Russians Attacked the Japs Near Pigeon Bay.

Apparently They Attempted to Capture the Heavy Guns Mounted by the Japanese-Loss on Both Sides Heavy.

London, Oct. 1 .- The failure of the latest Japanese attempt to drive out the Port Arthur fleet and reduce the fortress has led, according to the Daily Telegraph's Chee Foo correspondent, to the decision that the Japanese must go into winter quarters, Japanese officers admitted that Gen. Stoessel is making a superb stand. "Accordingly," the correspondent

says, "permanent fortifications affording excellent shelter are being constructed outside the Russian main line of defenses and warm clothing is being brought up for the troops. Reinforcements are continuously arriving. Finding it impossible to hold outer forts, even when they are captured, owing to the enfilading fire, the only alternative left the Japanese is to cut off supplies and communica-

Tien-Tsin, Oct. 1.—Russian officers here admit that it is the intention of the remaining Russian war vessels at Port Arthur to attempt to escape. They say that they expected the movement one week ago, and that it may now be expected daily.

Mukden, Oct. 1.—A great change in lanta. the situation here has occurred. The Japanese now appear anxious to act on the defensive, and have fortified a position northwest of the Yentai mines.

According to the best estimates obtainable, the Japanese army confronting Gen. Kuropatkin comprises a grand total of 180 battalions. Allowing 800 men to a battalion there are 144,000 infantry. In addition there are 6,300 cavalry and 638 guns. The distribution of the Japanese forces is as follows: One division at Bentsiaputze, two divisions at the Yentai mines, four divisions on the railway a little north of Liao Yang, one division westward near Hiameadenz and one division at Sandepu.

Che Foo, Oct. 3.-Severe fighting, the Russians being the aggressors, occurred September 28 and 29 on the west shore of Liaoti promontory near Pigeon bay, according to a report brought by Chinese who left Port Arthur September 30. The Russians already apparently are aiming to capture the heavy guns which the Japanese have mounted in that vicinity. The Russians were in considerable force and they made several sorties, dragging field artillery with them. They were unsuccessful, however, Three junks with 160 coolies arrived here Sunday. They left Port Arthur because they were forced to carry the wounded and bury the dead. They also were afraid that eventually they would have no food, although rice is plentiful now, according to their stories. They further say that the Russians lost heavily during the attacks of September 19 and September 23, but the Japanese loss was much heav-

Several of the Chinese who were employed in carrying dead say that the dead were so numerous that they were unable to form anything like an estimate of the number who fell in attacking and defending the supplementary forts near Itz mountain. Since the battle both sides continue to shell at intervals daily.

Tokio, Oct. 3.-The Russians are reported to be desperately endeavoring to retake their lost positions, including Fort Kuropatkin, in the hope of restoring the water supply of Port Arthur. They are said to have repeatedly assaulted the Japanese after shelling from neighboring forts and batteries. The Japanese continue to hold the positions. Both sides are said to have suffered severely. The newly mounted heavy Japanese guns are said to command the entire harbor. The position of the remnant of the Russian Port Arthur fleet is said to be precarious and it is believed the vessels must soon emerge or be de-

Yonkers Statesman. CAN DRINK TROUBLE.

That's One Way to Get It.

Although they won't admit it many people who suffer from sick headaches and other ails get them straight from the coffee they drink and it is easily proved if they're not afraid to leave it to a test as in the case of a lady in Connellsville.

"I had been a sufferer from sick headaches for twenty-five years and anyone who has ever had a bad sick headache knows what I suffered. Sometimes three days in the week I would have to remain in bed, at other times I couldn't lie down the pain would be so great. My life was a torture and if I went away from home for a day I always came back more dead than alive.

"One day I was telling a woman my troubles and she told me she knew that it was probably coffee caused it. She said she had been cured by stopping coffee and using Postum Food Coffee and urged me to try this food drink.

"That's how I came to send out and get some Postum and from that time I've never been without it for it suits my taste and has entirely cured all of my old troubles. All I did was to leave off the coffee and tea and drink well made Postum in its place. This change has done me more good than everything else put together.

"Our house was like a drug store for my husband bought everything he heard of to help me without doing Peoria, Ill., Oct. 3.—The town of any good but when I began on the Chillicothe, 22 miles north of here, Postum my headaches ceased and the other troubles quickly disappeared. I have a friend who had an experience just like mine and Postum cured her

just as it did me. "Postum not only cured the headaches but my general health has been improved and I am much stronger than before. I now enjoy delicious Postum more than I ever did coffee." Name given by Postum Co., Battle
